SUMMARY

Product Manager with 5+ years of experience building and scaling complex software products across AI-driven platforms, SaaS, infrastructure, and regulated domains. Proven track record of owning products end-to-end from strategy and discovery to launch and iteration, while working closely with engineering, design, data, and compliance teams. Strong at translating complex systems into simple, reliable user experiences, with hands-on experience applying AI and LLMs to product discovery, automation, and decision support. Skilled at balancing technical knowledge with practical product judgments.

PROFESSIONAL EXPERIENCE

Antier Solutions | Chandigarh, IN

Jun '21 - Present

Product Manager

- Owned **end-to-end product delivery** for multiple enterprise-grade platforms, from discovery through launch and iteration.
- Defined **product roadmaps, OKRs**, and **prioritized backlogs** across backend services, APIs, mobile/web apps, and infrastructure teams.
- Led **cross-functional execution** across **engineering, DevOps, QA, UX, and security** teams (120+ contributors).
- Delivered **high-throughput systems** supporting **100M+ monthly transactions**, focusing on reliability, scalability, and performance.
- Partnered with compliance and security teams to integrate **audit workflows**, risk controls, and release governance.
- Introduced **feature flagging**, CI/CD workflows, and release controls, improving deployment frequency from bi-weekly to daily.
- Applied **AI-assisted product discovery** using LLMs for requirement synthesis, support automation, and internal knowledge workflows.

Sirechain (Antier Affiliated) | Remote

Oct '22 - Mar '25

Product Owner

- Managed **product backlog ownership** for platform capabilities including **wallets, integrations, governance, and APIs**.
- Broke down **large, multi-quarter initiatives** into clear **epics, user stories, and acceptance criteria**.
- Led **platform launch execution**, supporting large-scale adoption and operational readiness.
- Designed **simplified user workflows** for complex system interactions, improving usability and onboarding.
- Represented product in **stakeholder reviews**, demos, and external partner discussions.
- Improved sprint velocity (~20%) by providing clear acceptance criteria, refining stories, and aligning on definition of done.

Sanghvi Consultancy | Ahmedabad, IN

Oct '20 - Mar '21

Research Analyst

- Automated client database processes, improving operational efficiency using Excel-based workflows.
- Elevated website traffic, social media engagement, & **conversion rates through the strategic implementation of SMM & SEO strategies using Google Analytics**
- Formulated a targeted plan to acquire new clients, resulting in a 4% increase in the client base

KEY SKILLS

- Product Strategy | Roadmap Development | LLM evaluation | Feature Prioritisation | Scrum/Agile | Prompt Design

- Design Oriented | Market Research | Problem Solving | Client Consultation | Prototyping | Product Delivery

TECHNICAL SKILLS

- **Tools:** MS Excel, Google Analytics, Jira, Confluence, Figma, Miro, Postman
- **Web3:** L1, L2, L0, Chain abstraction, DePIN, RWA, ZK & Rollups, Tokenomics Modelling, DeFi

PROJECTS AND PORTFOLIO

- **Vuelo: GenAIPowered Healthcare Assistant (AI + HealthTech)**
 - Gathered & refined requirements with external & internal stakeholders: prepared FRDs, flows, and sprint plans.
 - Evaluated and integrated LLMs, focusing on hallucination reduction, guardrails, and safe-response design.
 - Designed **AI conversation flows**, fallback logic, and escalation paths for sensitive health scenarios.
- **Qubetics: Layer-1 Blockchain (Chain Abstraction + DePIN)**
 - Defined product flows for chain abstraction, validator roles, staking logic, and early dVPN features.
 - Worked with blockchain devs to translate technical constraints into intuitive UI behaviors.
- **Tomí DePin Ecosystem: Decentralized Hosting & Storage (DePIN)**
 - Designed dashboard UX for usage tracking, billing, developer APIs, and lifecycle management.
 - Conducted competitive analysis and positioning strategy for decentralized hosting offerings.
- **BlockDAG: DAG based blockchain | Mining Mobile Application**
 - Reworked onboarding and mining UX flows, contributing to a ~35% increase in app downloads after v2 release.
- **Vine Labs: Layer 0 interoperable ecosystem | Metaverse**
 - Built modular cross-chain functionality for metaverse applications, enabling platform scalability

EDUCATION

Global Centre For Entrepreneurship & Commerce	Jaipur, IN	Mar '17 - Apr '20
<i>Bcom. Honors Entrepreneurship</i>		
Subodh Public School	Jaipur, IN	Mar '15 - Apr '16
<i>12th (Senior Secondary)</i>		
Subodh Public School	Jaipur, IN	Mar '14 - Apr '15
